scripts

Various small python scripts making life easier.

Available scripts:

- cleanup.py
  - Cleans up current or specified directory after LaTex compilations
  - `python cleanup.py` cleans current directory
  - `python cleanup.py exampleDir` cleans ./exampleDir/
- buildMarkdownFiles.py
  - Compiles all markdown files in directory using pandoc
  - `python buildMarkdownFiles.py` compiles markdown files in current directory
  - `python buildMarkdownFiles.py exampleDir` build markdown files in ./exampleDir/

Efficient usage

Use aliases to execute scripts in any directory.

```
alias buildMarkdownFiles = "python /pathToScript/buildMarkdownFiles.py"
```
